

Cam Plug Back-Log

Scott P.

Allen D.

FEATURES

MUST HAVE

Temp sensor

lock status

gasket integrity status

live indicator

SHOULD HAVE

unique id -Inventory --s/n--p/n

current flow

COULD HAVE

Geo location (possibly?)

Auth

Work-Flow guide

USER STORIES

As a user, I want to be notified if the temperature of the plug is increasing.

As a user, I want to be notified about the lock status of the plug.(Is it locked or unlocked)

As a user, I want an indicator to see if the plug is live.

As a user, I want all notifications to be displayed and easily understood.

As a user, the product must have a way to connect over a network and share information to A server.

As an owner, the product must have a unique ID to track, and record usage.

As an owner, I want a desktop application so that the users have a way to interact with our product.
